CONDITIONS OF SALE.

I. The highest bidder is to be the buyer; and if any dispute arise between the bidders, the lot in dispute is at the Auctioneers' discretion, either to be immediately put up again and re-sold, or the Auctioneers may decide the dispute. The vendor reserves the right to bid by himself or his agents, or to alter, vary or withdraw any lot or lots before or during the sale.

II. No person to advance less than $\frac{1}{4}$ d. per foot, 3d. per cwt., 1s. on each lot sold all at; above £2 two shillings; above £5 five shillings; and so on in proportion; or such other sum as the Auctioneers may determine; or retract his or her bidding.

III. The purchaser to pay immediately five shillings in the pound as a deposit and in part payment, and to declare his name and place of abode if required, in default of which the lot shall be directly put up again and re-sold. The deposit paid shall be held by the Auctioneers as a general deposit on the whole amount of the purchases of the buyer by whom such deposit shall be made.

IV. Each purchaser to pay the whole amount of his purchase-money for all lots bought by him, before any lot or lots can be removed, and the whole amount due from each purchaser must be absolutely paid within 7 days after the last day of sale (whether any lot or lots purchased are or are not cleared away), and if not paid within such time all money deposited in part payment shall be absolutely forfeited, and the Auctioneers shall be at liberty to re-sell the lot or lots or any part thereof remaining unremoved by public or private sale, without giving previous notice to the purchaser; and any deficiency which may arise on such re-sale, together with all expenses attending the same, shall be made good by the purchaser. The Auctioneers will not be responsible for any lot or part of any lot after the fall of the hammer, from which time all lots purchased are at the risk of the purchaser; no lot shall be removed until after the day or final day of sale, as the case may be.

V. The lots are sold with all faults and errors of description. The purchaser is deemed to have inspected the lots he buys, and if he buys without previous inspection he does so at his own risk. Lots sold by weight are to be taken to the scales and weighed by and at the expense of the purchasers, and all lots must be absolutely cleared away from the premises within 14 working days from the last day of sale. No allowance can in any case be made, nor will the vendor be answerable for any deficiency in quantities or measurements, when the purchaser, his agent, carrier or man employed by him, has removed his lot or lots from the premises. If any lot is not cleared away within the specified time, the purchaser shall (but without prejudice to the Auctioneers' rights under these conditions) pay as rent a sum equal to 5 per cent. per week on the purchase price of such lot. This rent shall be deemed part of the purchase-money of such lot.

VI. The purchasers shall be answerable for any damage occasioned to any adjoining or other lot, by the removal of their respective lots, or to the premises, and to repair the same before the removal of their lots from the premises. No allowance will be made for any mis-description or mis-measurement. The measurements and quantities described in catalogue are believed to be correct and must be taken as such. In the event of any person interested in the premises claiming the whole or any part of a lot before its removal therefrom, or if, in the Auctioneers' opinion, the removal of any lot will endanger or permanently damage any building, the Auctioneers may, by written notice to the purchaser of such lot delivered to him or his agent, or sent by post to his place of abode or business last known to the Auctioneers, rescind the sale of such lot. The purchaser shall then be re-paid his deposit or purchase money, but shall not have or make any other claim.

VII. If any lot is not cleared away in accordance with the conditions of sale, the Auctioneers may remove same at the expense and risk of the purchaser, who shall pay every expense attending such removal and the cost of making good all damage occasioned thereby. The Auctioneers shall not be responsible to the purchaser for any damage occasioned by such removal and may if they think fit sell the lot so removed (although the purchase-money has been paid) either by public or private sale without giving previous notice to the purchaser, and shall pay to the purchaser the proceeds of the sale after deducting all costs and expenses attending the removal and of making good such damage as aforesaid, and of the sale.

VIII. If any dispute or difference arise about any lot, or any other subject, the same to be settled by the Auctioneers or the person appointed to deliver, whose determination shall be final and binding on all parties concerned.

LASTLY. On neglect or failure to comply with the above conditions or any of them, or on non-performance or non-fulfilment of all or any of them (including Condition IV.), the money deposited in part payment shall be absolutely forfeited, and the Auctioneers shall be at liberty to re-sell the lot or lots, or any part thereof remaining unremoved, by public or private sale, without giving previous notice to the purchaser; and any deficiency which may arise on such re-sale, together with all expenses attending the same, shall be made good by the defaulter or defaulters at this present sale.

NOTE.—Country Cheques can only be credited to account on advice of their being paid, and no lots will be delivered until such advice has been received.
